

Help Document

When you click on help this document will open .

When you click **Finish** without filling the details this screen will appear.
you should fill all the required fields here.

The image shows a software dialog box titled "CAPmodel RF" with the Artihcus Global logo. The main heading is "System Connection Parameters". It contains several input fields for configuration: "Description:" with a pink field containing "Enter Description..."; "System Id:" with a pink field containing "ID"; "Instance Number:" with a pink field containing "Num"; "Client:" with a pink field containing "Cli..."; "Application server:" with a pink field containing "Enter Application server..."; "SAP Router String:" with a white field containing "Enter Router String..."; and "SAP Service:" with a white field containing "Enter Service...". Below these fields is an unchecked checkbox labeled "Description as System ID/Client". At the bottom, there is a black bar with four white buttons: "Clear", "Cancel", "Finish", and "Help".
